EDITORIAL INTRODUCTION

Articles published by the New York Times and by BBC News show that the Israelis knew months in advance that Hamas was training for a major "attack". They could have prevented this "attack" but they ignored the warnings. Was this a regrettable intelligence failure as they claimed after October 7 2023, or was it intentional because the Israelis wanted this "attack" to happen because they needed, as so often in the past, a pretext for a war to promote their long-term programme of ethnic cleansing and genocide. Does it matter to the Zionists whether they get their hostages back, or is the loss of 1,500 lives and of the hostages a price well worth paying for the benefits of their "war"? This article calculates the benefits for the Israelis.

THE WARNINGS

Research published by the New York Times on 2023-11-30 and by BBC News on 2024-01-15 shows that the Israelis were warned months in advance of the planned Hamas "attack" and had the detailed Hamas plans.

The warnings are described in the following articles:

New York Times article of 2023-11-30

<https://www.nytimes.com/2023/11/30/world/middleeast/israel-hamas-attack-intelligence.html>

and the BBC News article of 2024-01-15

In spite of repeated and persistent warnings, the Israelis did not take any measures to prevent these "attacks" from happening. I draw the following conclusions:

The Israelis are watchful and careful where security is concerned. They usually attack before they are being attacked. They don't allow slip-ups and human error. They chose to ignore the warnings. They allowed the Hamas "attack" to happen.

The fact that, in spite of the repeated warnings, they did not take any action to prevent the "attack" shows clearly that they **wanted** the attack to happen because it would provide them with a **pretext** to continue, with the approval of the USA, the UK, Germany and the EU, the campaign of ethnic cleansing on which they had been engaged on and off since 1947 and which the Hamas freedom fighters had been struggling against for decades.

THE PLAN FOR REMOVING ALL PALESTINIANS

The research of Israeli historians Ilan Pappé and of Haim Bresheeth-Žabner has shown that the long-term aim of the Zionists is to turn the whole of Palestine (including Gaza and the "West Bank") into a purely Jewish State and remove the original inhabitants by expelling or killing them.

"While the guns were roaring on the third day of the war [the 6-Day War], June 7 [1967], Defense Minister Moshe Dayan told Lieutenant

General Yitzhak Rabin, the chief of the general staff, that the aim was to empty the West Bank of its inhabitants." (Bresheeth-Žabner)

The idea was expressed colourfully, in Hebrew (omitted from the English edition), by exasperated Israeli journalist Kobi Niv in a newspaper article of 2018-11-28:

At the end, we will do it [remove every Arab from the Palestinian land]. What alternative is left? What did we not try? We besieged, barred and blockaded, starved and darkened - this is it, we have reached the end of the scale. We ran out of ideas and they are still there. We won, but what kind of victory is this? A victory is not a "regularisation." A victory is not real if there are no heads rolling on sidewalks, no blood in the streets. Therefore, Gaza needs destroying, leaving not a single stone, expelling, then killing anyone left. (my emphasis) Source: Koby Niv, "From Talk to Action. From Regularisation to Extermination," Haaretz, November 28, 2018 (Hebrew). Taken from Bresheeth-Žabner.

This is an allusion to Cato the Elder's famous admonition "Caeterum censeo Carthaginem esse delendam" (Apart from this, I believe that Carthage needs destroying.) In 146 BC, Carthage was razed by the Romans, and its entire remaining population was sold into slavery (Wikipedia). Today, in 2024, we witness Israel doing what Koby Niv demanded in 2018.

Haim Bresheeth-Žabner describes the long-term Israeli plan for annexing Gaza like this:

This episode of Israel trying to legalize its illicit intention to annex the Sinai and the Gaza Strip demonstrates, yet again, that the 1948 Nakba was but the first iteration of a systemic policy of annexing any territory that Israeli forces may occupy and hold. During the decade between the two wars, Israel had carefully prepared to annex the rest of Palestine through a military campaign, which meant that the 1967 conquests could be retained for many decades through a complex set of measures. These included illegal occupation and control, denial of all rights for the residents of the West Bank and Gaza, and the imposition of a military government of occupation. (my emphases)

This is also commanded by the Bible, which can be quite pernicious at times but a great motivator for the land-grabbing army of the settlers: E.g.

- "Every place where you set your foot will be yours." (Deuteronomy 11:24)
- "Do not let them live in your land", (Exodus 24:23-33).
- "Show them no mercy" (Deuteronomy, 7:4).

Religion is not always a force for good in the world.

The removal of Palestinians from Gaza, many of whom are refugees expelled from what is today alleged to be "Israel" (i.e. twice refugees) shows the long-term plans the Zionists have for the West Bank, where the number of settlements will be increased and the Palestinians gradually be squeezed out until there are none of them left. The Bible recommends this process of slow strangulation, of a gradual take-over: "Little by little I will

drive them out before you, until you have increased enough to take possession of the land." (Exodus 24:30)

That is the reason why Netanyahu cannot possibly (and will not) agree to a two-state solution, will not give up control of the West Bank and will not agree to the removal of the West Bank Jewish settlements, which are part of the Zionist programme to remove all Palestinians from Palestinian soil and make it a purely Jewish state. (Hitler's aim was to make Germany a purely Arian state: we see the Nazi-Zionists in the footsteps of their fuhrer.)

The only feasible solution is a **one-state solution**, in which Jews and Arabs live together, with equal rights, as they did before the Zionist invasion with their racist ideology; but that requires a radical change of mindset on the part of the Israelis, and the Palestinians forgetting and forgiving the injustices they have suffered at the hands of the Zionist invaders.

THE COMPUTATIONS

Viewing this as a "business model", a simple calculation shows what an unbelievably good investment the Hamas "attacks" of 7 October 2023 were for the Zionists, and therefore I conclude that **the Zionists wanted the Hamas "attacks"**.

They wanted a casus belli - as Hitler did on 31 August 1939 when he staged a pretence attack on Gleiwitz radio station in order to have a justification for invading Poland, an action which triggered World War II. What will be the consequences of Israel's present conduct in Gaza!

Let us assume the worst, namely that none of the hostages will survive.

In that case the investment (cost) for the Israelis in approximate figures would be:

```
1,500 non-hostage Israelis killed
  250 Israeli hostages killed
-----
1,750 Israelis killed
=====
```

As of 2024-01-21, according to figures released by Hamas, approximately 25,000 Palestinians have been killed.

That means that, for every Israeli corpse invested, the Zionists get 14.3 Palestinian corpses, i.e. a return of 1,430%, a stunning rate of return: makes your mouth water.

But that is 1,430% **per 3 months**, which has to be converted to the rate **per annum** to make it comparable to other investment opportunities for the Zionists (such as trading corpses with the

Iranians). For the trade with the Palestinians, we then get 5,720% p.a., (let's call it **six thousand per cent** per annum), since the longer the "war" continues and the longer the white powers fail to stop it, the better the return: the investment in Israeli bodies has to be continued only slightly but the benefits in terms of Palestinian bodies continue to flow as long as Netanyahu is allowed to continue his ethnic clean-up and, of course, as long as there are still any living Palestinians that can be turned into corpses. Living Palestinians are a finite resource, especially if Netanyahu wipes out women and children, as, thank (his) god, he does: Unfortunate accidents, wrong conduct by rogue IDF soldiers, and "collateral damage" are not what they seem: Everything has its purpose.

There will be many more dead Palestinians but very few additional dead Israelis, unless the Israeli god intervenes and, Insha Allah, sends fire and brimstone on his godless "chosen people", as he did on Sodom and Gomorrah (Bible, Genesis 18-19).

Father Abraham, who out-haggled his god over Sodom and Gomorrah, would rub his hands in delight if he could see the rate of return his god allows his descendants to make. Unfriendly observers would call it **usury**, but I am sure saying that is illegal and therefore I will not say it but only think it.

In brief, the forthcoming Hamas actions were an **opportunity too good to be missed** for the Israelis. QED.

UPDATE 2025-03-02

The above computations of profitability in the exchange of corpses were based on the following **assumptions**:

1,500 non-hostage Israelis killed
250 Israeli hostages killed

1,750 Israelis killed

As of 2024-01-21, according to figures released by Hamas, approximately **25,000 Palestinians** have been killed.

As of 2025-03-02, the death toll was as follows:

Quote: As of 25 February 2025, over 50,000 people - 48,903 Palestinian and 1,706 Israeli - have been reported killed in the Gaza war according

to the official figures of the Gaza Health Ministry, as well as 166 journalists and media workers, 120 academics, and over 224 humanitarian aid workers, a number that includes 179 employees of UNRWA. Scholars have estimated 80% of Palestinians killed are civilians. A study by OHCHR, that verified fatalities from three independent sources, found that 70% of the Palestinian killed in residential buildings or similar housing were women and children. (Wikipedia: https://en.wikipedia.org/wiki/Casualties_of_the_Gaza_war - Accessed on 2025-03-02)

i.e. the corpse-trading in Gaza has become infinitely more profitable for the Misraelis than the above calculations.

UPDATE 2025-04-21

"More than 50,000 killed in Gaza since Israel offensive began, Hamas-run ministry says". (Source: <https://www.bbc.co.uk/news/articles/clyz4nnqgvdo>

Since then, President Trump in his second term has suggested that the USA take over the Gaza Strip, turn all the Palestinians out (as has been the aim of the Nazionists for over a hundred years) and turn it into a giant golf course, with No-Entry signs for Arabs and Gypsies, a pleasure-ground for affluent Americans and Jews, as has been the intention all along and explains why America invested so heavily with arms and ammunition in the killing of Palestinians. This intention harmonises well with Trump's firmly expressed wish to take over Canada and Greenland as well.

(5 February 2025)

Gaza is a desirable piece of real estate on the Mediterranean coast occupied by undeserving "natives" (savages).

Fake news circulating say that there are plans to build secret factories in the Negev Desert for producing "Gaza Chambers"®, based on models tried and tested in Auschwitz. They will be used to exterminate the bomb- and hunger-resistant Arab vermin in Gaza. There will also be factories for producing bone meal fertiliser for the new golf course. This cannot possibly be true.

I have been told the Misraelis will be offended if I publish these top-secret plans. But considering how much the 50,000 dead Arabs have been hurt, at least emotionally (and they have never complained!), a few hundred thin-skinned Israelis must grin and bear it if I say things they don't like.
